

CampusTales - Interview Experience Sharing Platform

Feature & Usage Guide

This document explains the key features of the this Interview Experience Sharing Web Platform and how to use it efficiently.

1. Project Overview

CampusTales is designed to help students share their interview experiences after getting selected. These experiences are reviewed by an admin and then published on a public dashboard. Future candidates can use this platform for preparation, guidance, and motivation.

The system ensures:

- Authentic content through admin approval
 - Structured experience sharing
 - Easy search and filtering
 - Centralized learning resource for students
-

2. User Module (Student Side)

2.1 Home Page

- Acts as the landing page
 - Displays basic information about the platform
 - Provides access to Login and Create Account options
-

2.2 Login / Create Account

- Users can register with basic personal information
 - Existing users can log in securely
 - Create Account option is available at the top-right corner
-

2.3 User Dashboard

After login, users are redirected to the dashboard.

Features:

- Displays approved interview experiences as cards

- Each card shows brief details
 - On clicking a card, full experience opens on a new page
 - Easy navigation and clean layout
-

2.4 Share Your Experience Form

Users can submit their interview experience using a structured form.

Basic Information Section:

- Company Name (e.g., Google, Microsoft)
- Experience Type (Internship / Placement / PPO etc.)
- Current Year
- Branch
- Passout Year (e.g., 2026)
- Placement Type

Interview Details Section:

Users can answer guided questions or write freely:

- Interview rounds and structure
- Technical questions asked
- Aptitude / reasoning topics
- Preparation strategy
- Difficulty level and trick questions
- Required skills/technologies
- HR round questions
- Recommended resources

Experience & Insights:

- Detailed description of interview journey
- Tips and company insights
- Preparation advice
- Optional contact details (email, mobile)

Users may:

- Click reference questions and answer them
 - Or write a complete experience with a conclusion
-

2.5 Search and Filter System (User Side)

Users can search and filter experiences using:

- Search by Student Name
- Search by Company Name
- Filter by Experience Type

- Filter by Year
- Filter by Branch
- Filter by Passout Year
- Filter by Placement Type
- Hide/Show Filters option

This helps users find relevant experiences easily.

2.6 User Profile Section (Top-Left Corner)

Each user has a profile section containing:

- List of submitted experiences
- Status of each post:
 - Approved
 - Pending
 - Rejected
- Logout option

This allows users to track their submissions.

3. Admin Module

3.1 Admin Login

- One predefined email and password
 - Only authorized admin can access
 - Secure login system
-

3.2 Admin Dashboard

The admin dashboard provides complete control and monitoring.

Analytics Section:

Displays:

- Total Users
- Total Posts
- Approved Posts
- Pending Posts
- Rejected Posts

These statistics help in tracking platform activity.

3.3 Admin Filters and Search

Admin can filter and search using:

- Search by Student
- Search by Company
- Experience Type
- Year
- Branch
- Passout Year
- Placement Type
- Status (Approved / Pending / Rejected)
- Date (dd/mm/yyyy)
- Hide/Show Filters

This helps in quick review and management.

3.4 Experience Review Page

When admin clicks on any experience:

- Full experience opens on a new page
- All submitted details are visible
- Admin can:
 - Approve the post
 - Reject the post

After action:

- Status is updated
 - Approved posts appear on user dashboard
 - Rejected posts are hidden
-

3.5 Admin Logout

- Secure logout option available
 - Prevents unauthorized access
-

4. Platform Workflow

Step 1: User Registration

Student creates account and logs in.

Step 2: Experience Submission

User fills the form and submits experience.

Step 3: Admin Review

Admin reviews submission on dashboard.

Step 4: Approval / Rejection

Admin approves or rejects the experience.

Step 5: Publishing

Approved experiences become visible to all users.

5. Key Benefits of the Platform

- Centralized interview knowledge base
 - Helps juniors prepare effectively
 - Maintains content quality through admin approval
 - Encourages peer learning
 - Saves time during placement preparation
 - Improves transparency and guidance
-

6. Conclusion

This Interview Experience Sharing Platform provides a structured, reliable, and student-friendly system for collecting and sharing placement experiences. With proper usage and mentoring support, it can become a powerful preparation resource for future batches.

It promotes learning from real experiences and builds a strong placement support ecosystem.
